

## ABSTRACT

RITNA SAUWALI. Women's Participation in Development Planning Deliberations in Kasia Village, Sumalata District, North Gorontalo Regency. Under the guidance of APRIS ARA TILOME as Supervisor 1 and MUH. FIRYAL AKBAR as Supervisor 2.

This research aims to find out how women participate in development planning deliberations in Kasia Village, Sumalata District, North Gorontalo Regency. The research method uses a qualitative approach with descriptive research type. The research results showed that women's participation in development planning deliberations in Kasia Village, Sumalata District, North Gorontalo Regency has not been implemented well. Of the 3 (three) indicators of women's participation used, namely indicators of women's participation in the planning stage (idea planning stage), participation in the implementation stage (implementation stage), and women's participation in utilization (utilization stage), all three have not yet been implemented. well. Women are aware of the implementation of the Musrenbangdes but sometimes they are not present, even though they are present at the activities, they do not participate in providing ideas, proposals or suggestions. In implementing planning activities, women still have minimal participation in the form of material and non-material contributions and do not want to be directly involved in the process directly in planning activities. Furthermore, women are considered to still be minimal in terms of monitoring the results of established planning. They considered that after the Musrenbangdes had been held, there was no need for active involvement in subsequent activities. However, women's involvement is still needed until the planning process that has been produced has actually been implemented in accordance with the established plans.

**Keywords:** *Women's Participation, Planning Deliberation*

## ABSTRAK

RITNA SAUWALI. Partisipasi Perempuan Dalam Musyawarah Perencanaan Pembangunan di Desa Kasia Kecamatan Sumalata Kabupaten Gorontalo Utara. Dibawah bimbingan APRIS ARA TILOME sebagai Pembimbing 1 dan MUH. FIRYAL AKBAR sebagai Pembimbing 2.

Penelitian ini bertujuan untuk mengetahui bagaimana Partisipasi Perempuan Dalam Musyawarah Perencanaan Pembangunan di Desa Kasia Kecamatan Sumalata Kabupaten Gorontalo Utara. Metode penelitian menggunakan pendekatan kualitatif dengan jenis penelitian deskriptif. Hasil penelitian didapatkan bahwa Partisipasi Perempuan Dalam Musyawarah Perencanaan Pembangunan di Desa Kasia Kecamatan Sumalata Kabupaten Gorontalo Utara belum terlaksana dengan baik. Dari 3 (tiga) indikator partisipasi perempuan yang digunakan yakni indikator partisipasi perempuan di dalam tahap perencanaan (*idea planing stage*), partisipasi di dalam tahap pelaksanaan (*implementation stage*), dan Partisipasi perempuan di dalam pemanfaatan (*utilitazion stage*), ketiga-tiganya belum berjalan dengan baik. Kaum perempuan mengetahui pelaksanaan Musrenbangdes namun kadang tidak hadir, walaupun mereka hadir dalam kegiatan, namun tidak ikut berpartisipasi dalam pemberian ide, usulan ataupun saran. Dalam pelaksanaan kegiatan perencanaan, kaum perempuan masih minim dalam partisipasi berupa pemberian materiil maupun non-materiil serta tidak mau terlibat secara langsung dalam proses secara langsung dalam kegiatan perencanaan. Selanjutnya kaum perempuan dianggap masih minim dalam dalam hal pengawasan atas hasil perencanaan yang ditetapkan. Mereka menganggap bahwa setelah dilakukannya Musrenbangdes, tidak perlu lagi adanya keterlibatan secara aktif dalam kegiatan selanjutnya. Padahal keterlibatan perempuan tetap dibutuhkan hingga proses perencanaan yang telah dihasilkan betul-betul telah terlaksana sesuai dengan perencanaan yang ditetapkan.

**Kata Kunci:** Partisipasi Perempuan, Musyawarah Perencanaan
