SINTIYA OKTAVIANI I. YUSUF. Factors Related to Visits to the Elderly Posyandu in Ilomangga Village, Tabongo District, Gorontalo Regency, Gorontalo Province. Thesis, Nursing Department, Faculty of Medicine and Health Sciences. Muhammadiyah University of Gorontalo. Supervised by ROSMIN ILHAM as chair and HAMNA VONNY LASANUDDIN as member.

The increase in the elderly population will be accompanied by various health problems and will affect various aspects of the elderly's lives. To overcome these elderly health problems, the government has planned services for the elderly, one of which is the elderly posyandu. The purpose of this research was to determine the Factors Related to Visits to the Elderly Posyandu in Ilomangga Village, Tabongo District, Gorontalo Regency, Gorontalo Province. The research method used was an analytical survey study with a cross-sectional design. The population of all elderly people in Ilomangga Village, Tabongo District, Gorontalo Regency, this study was 176 people using purposive sampling, so the sample size was 64. Data analysis used the Chi square test. The results showed that family support was mostly in the good category 39 respondents (61.9%) and the less category 25 respondents (39.1%), distance was mostly in the easy category 47 respondents (73.4%) and the difficult category 17 respondents (26.6%), motivation was mostly in the high category 50 respondents (78.1%) and the low category 14 respondents (21.9%), and visits were mostly in the regular category 19 respondents (29.7%) and the irregular category 45 respondents (70.3%). The conclusion is that there is a relationship between family support and distance with visits to the elderly health post in Ilomangga Village, there is no relationship between elderly motivation and visits to the elderly health post in Ilomangga Village. Suggestion It is expected that the results of this study can provide useful information for the elderly and their families in Iloamngga Village, Tabongo District, Gorontalo Regency, Gorontalo Province. With this information, it is expected that the elderly and their families will pay more attention to matters related to visits to the elderly posyandu.

Keywords: elderly, family support, distance, motivation and visits to the elderly posyandu.

ABSTRAK

SINTIYA OKTAVIANI I. YUSUF. Faktor- Faktor Yang Berhubungan Dengan Kunjungan Ke Posyandu Lansia Di Desa Ilomangga Kecamatan Tabongo Kabupaten Gorontalo Provinsi Gorontalo.
